

Employment Dataset Project Storyboard

By Gavin Gunawardena

Factors to Consider When Taking a Job

Note: This is all from data of successful foreign worker visa applicants between 2011 and 2015

Different Cities seem to have better employment numbers and salaries based on your career path.

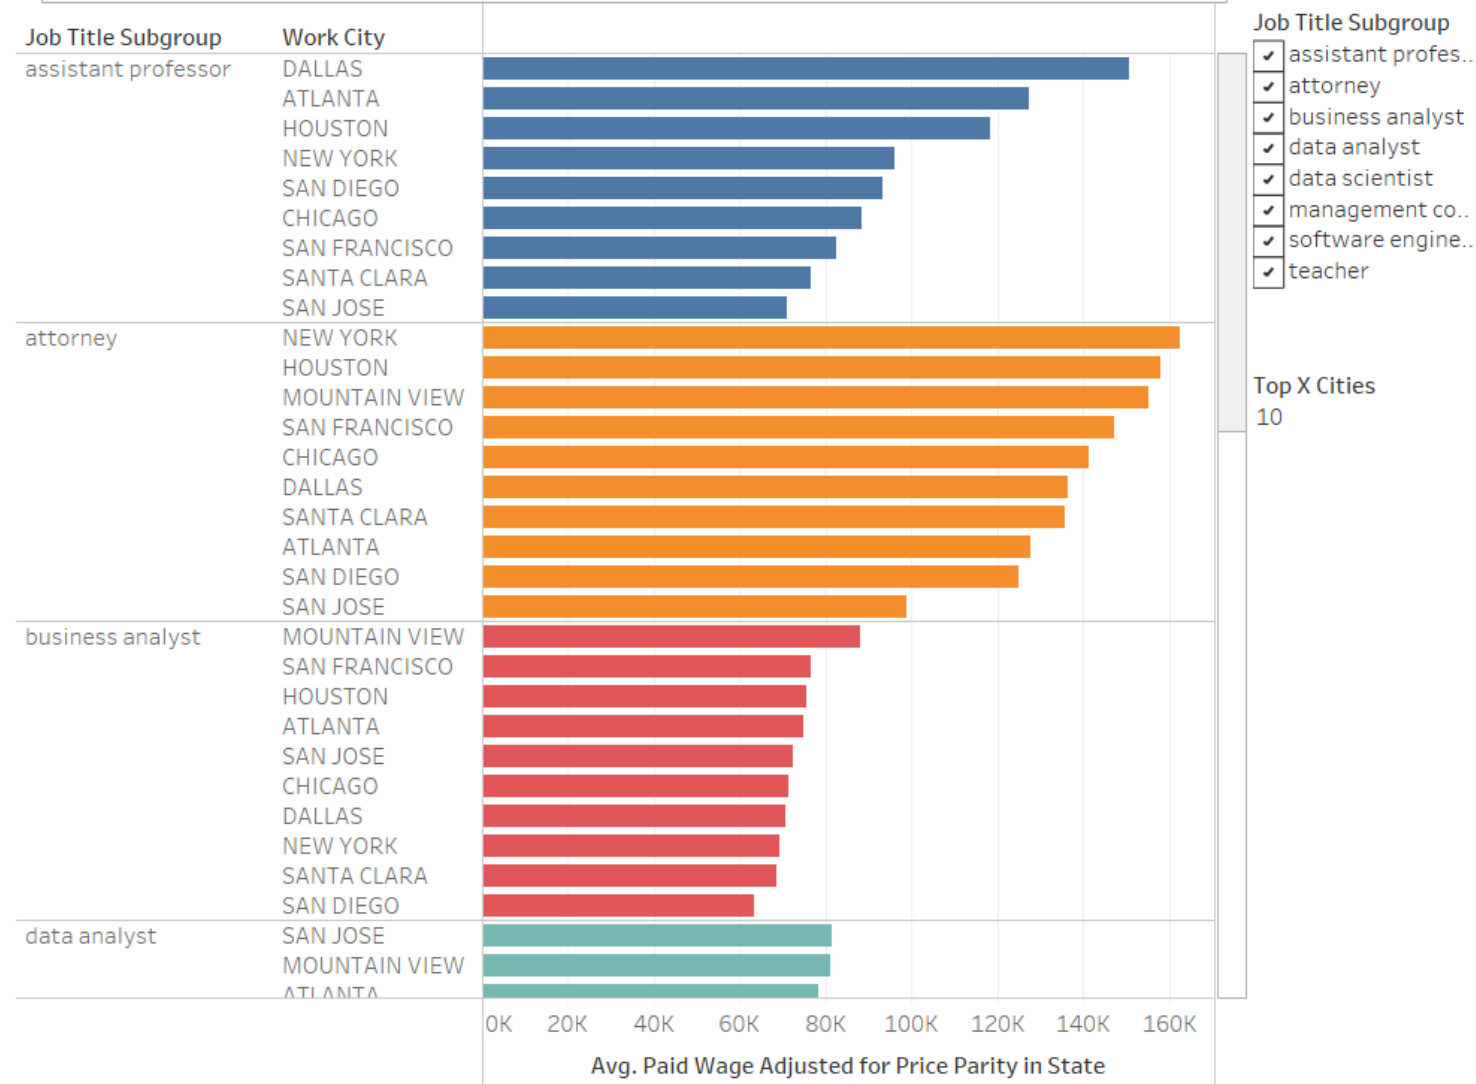

Different states seem to be unexpectedly better to live in in regards to salary and cost of living compared to others.

If you're working via a work visa, getting your visa processed may take longer if it's an H-1B1 Chile visa.

You should also take into account the average current paid wage for a position and visa class compared to the prevailing wage.
